

## Special Issue

# Disparities in Thoracic Oncology Patients

### Message from the Guest Editors

This Special Issue, titled “Disparities in Thoracic Oncology Patients”, discusses current and former knowledge of disparities that exist worldwide in patients undergoing thoracic surgery or being treated with systemic or radiation therapy for a variety of cancers, including lung cancer, esophageal cancer, mesothelioma, and other thoracic malignancies. Articles submitted to this Special Issue should have a special emphasis on thoracic oncology and how different subpopulations of the patients we treat have different sociodemographic and clinical factors, and how that relates to potential short- and long-term outcomes.

---

### Guest Editors

Dr. Jeffrey B. Velotta

Department of Surgery, UCSF East Bay, Oakland, CA 94602, USA

Dr. Nestor Villamizar

Division of Cardiothoracic Surgery, The DeWitt Daughtry Department of Surgery, University of Miami, Miami, FL, USA

---

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
