Disparities in Thoracic Oncology Patients

Message from the Guest Editors

This Special Issue, titled “Disparities in Thoracic Oncology Patients”, discusses current and former knowledge of disparities that exist worldwide in patients undergoing thoracic surgery or being treated with systemic or radiation therapy for a variety of cancers, including lung cancer, esophageal cancer, mesothelioma, and other thoracic malignancies. Articles submitted to this Special Issue should have a special emphasis on thoracic oncology and how different subpopulations of the patients we treat have different sociodemographic and clinical factors, and how that relates to potential short- and long-term outcomes.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
