

Special Issue

Latest Advancements in Health-Related Quality of Life Research in Cancer Survivorship (2nd Edition)

Message from the Guest Editors

This Special Issue is the second edition of a previous one, entitled "Latest Advancements in Health-Related Quality of Life Research in Cancer Survivorship" (https://www.mdpi.com/journal/cancers/special_issues/LP52Q97CJ4). The continuing improvement of early detection and screening measures, as well as advancements in treatments, coupled with a progressively aging population, has resulted in increased numbers of cancer survivors. This, in turn, has led to increased interest in and emphasis on assessing the health-related quality of life (HRQoL) of this population. In light of this, we have proposed a Special Issue of *Cancers* dedicated to exploring the recent developments in HRQoL in the context of cancer survivorship. We welcome submissions focusing on clinical trials and other studies assessing long-term HRQoL trajectories; methodological papers, including both qualitative and quantitative research into HRQoL in cancer survivorship, are also of interest.

Guest Editors

Prof. Dr. Richard Crevenna

Department of Physical Medicine, Rehabilitation and Occupational Medicine, Medical University of Vienna, Vienna, Austria

Prof. Dr. Thomas Licht

Ludwig Boltzmann Institute for Rehabilitation Research, Kurbadstraße 14, 1100 Vienna, Austria

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
