

Special Issue

Advances in the Multimodal Management of Pancreatic Ductal Adenocarcinoma

Message from the Guest Editors

This Special Issue, “Advances in the Multimodal Management of Pancreatic Ductal Adenocarcinoma”, brings together original research, clinical studies, translational science, and expert perspectives to highlight the latest progress in this rapidly evolving field. Contributions addressing critical areas such as neoadjuvant and adjuvant therapies, biomarker-driven treatment selection, and the integration of precision oncology, immunotherapy, and novel imaging or surgical techniques are welcome. Unique research articles and technical innovations that further illustrate the potential of individualized, multidisciplinary care are also of interest. By fostering collaboration across surgical oncology, medical oncology, radiology, pathology, and translational research, this Issue aims to illuminate new pathways for improving outcomes globally and shaping the future of PDAC management.

Guest Editors

Dr. Olav F. Dajani
Dr. Knut Jørgen Labori
Dr. Arne Westgaard

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
