## **Special Issue**

# CancersScape: Spatial Biology of the Tumor Ecosystem

## Message from the Guest Editors

This Special Issue will feature selected papers from the "Cancers 2025—Cancers Scape: Spatial Biology of the Tumor Ecosystem" conference. The conference will be held in Barcelona, Spain, from November 5–7, 2025, in a fully in-person format.

It is structured into five sessions:

- S1. Spatial multi-omics techniques and approaches;
- S2. Spatial intra-tumoral heterogeneity in the tumor microenvironment;
- S3. Spatial bioinformatics and data analysis:
- S4. Application of spatial technologies in cancer diagnosis;
- S5. Application of spatial technologies in cancer drug discovery.

There will also be posters on the above topics.

Selected papers that attract the most interest on the web or that provide a particularly innovative contribution will be selected for publication.

## **About the Journal**

## Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
