

## Special Issue

# Commemorates Reaserches From Les Compagnons Hepat Biliaires 2023

### Message from the Guest Editors

This Special Issue of *Cancers* focuses on the topic of upper abdominal surgery. Together with Professor Henri Bismuth, we decided to dedicate this Special Issue to the research of Les Compagnons Hepato-Biliaires. Les Compagnons Hepato-Biliaires was founded in 1986 by the students of Professor Henri Bismuth, who undertook internships in his center at the Paul Brousse Hospital. Our goal is to develop all research aspects in the file of hepatobiliary surgery. We are pleased to invite you to contribute innovative research to this Special Issue from clinical and scientific perspectives. This Special Issue aims to demonstrate the valuable research of the Compagnons group across different parts of the world. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Hepato-pancreato-biliary (HPB) surgery;
- Pancreatic surgery;
- Liver transplantation;
- Liver metastases.

We look forward to receiving your contributions.

---

### Guest Editors

Dr. Arié Ariche

Department of Surgery, Hadassah Medical Organization and Faculty of Medicine, Hebrew University of Jerusalem, Jerusalem, Israel

Prof. Dr. Hugo Pinto-Marques

Centre Hépato-Bilio-Pancreatique et de Transplantation, Lisbonne, Portugal

Prof. Dr. Pietro Majno

Ente Ospedaliero Cantonale, Bellinzona, Switzerland

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
