# New Insights into Kidney Disease Development and Therapy Strategies

### Message from the Guest Editors

Basic science and practical issues related to etiological factors, methodology of analysis, diagnostic criteria, and therapeutic advances of neoplastic and non-neoplastic renal diseases are welcomed in this Special Issue, from renal epithelial/non-epithelial tumors to hereditary diseases, transplantation-related disorders, and glomerulonephritis. The Issue intends to bring together the experience of very different fields and serve as a unified forum for basic researchers, urologists, nephrologists, oncologists, pathologists, radiologists, and other related specialties. You may choose our [Joint Special Issue](#) in *Biomolecules*.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
