Special Issue

Surgical Treatment of Abdominal Tumors

Message from the Guest Editors

We are pleased to invite you to this Special Issue, entitled "Surgical Treatment of Abdominal Tumors", of *Cancers*. This Special Issue aims to highlight recent advancements in the surgical management of abdominal tumors while also addressing all current application issues and future research directions. In this Special Issue, original research studies and review articles are welcome. Research topics may include, but are not limited to, the following:

- Surgery for intra-abdominal and abdominal wall malignancies;
- Improving oncological efficacy;
- Enhanced recovery after an abdominal tumor resection:
- Adjunctive surgical techniques;
- The role of minimally invasive approaches.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
