

# Special Issue

## Surgical Treatment of Abdominal Tumors

### Message from the Guest Editors

We are pleased to invite you to this Special Issue, entitled “Surgical Treatment of Abdominal Tumors”, of *Cancers*. This Special Issue aims to highlight recent advancements in the surgical management of abdominal tumors while also addressing all current application issues and future research directions. In this Special Issue, original research studies and review articles are welcome. Research topics may include, but are not limited to, the following:

- Surgery for intra-abdominal and abdominal wall malignancies;
- Improving oncological efficacy;
- Enhanced recovery after an abdominal tumor resection;
- Adjunctive surgical techniques;
- The role of minimally invasive approaches.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
