

Special Issue

Surgical Oncology for Hepato-Pancreato-Biliary Cancer

Message from the Guest Editor

The objective of this Special Issue is to provide an update in the field of the surgical oncology of primary and metastatic hepatobiliary, as well as pancreatic tumors, and on their future challenges. This issue aims to review outcomes from traditionally used surgical interventions, as well as novel surgical techniques that are emerging in modern clinical practice. We strongly encourage authors to submit high-quality research articles focusing on emerging surgical strategies and innovative multidisciplinary treatment protocols for the management of HPB tumors. Original articles, as well as review articles, communication, and commentary are welcome for submission.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
