Advanced Surgical Modalities in Breast Cancer Treatment

Message from the Guest Editor

New technologies in breast cancer surgery are emerging every year, enabling surgeons to perform procedures with greater precision and accuracy—both in breast tumor resection and axillary staging. Today, breast cancer surgeons rely on a wide range of technical tools in their daily practice, including tracers, localization methods, specimen radiography, and more. We are pleased to invite you to contribute an article to this Special Issue, which is dedicated to advanced surgical modalities in breast cancer treatment. Submissions on novel methods, innovative techniques, or cutting-edge technologies in breast cancer surgery are warmly welcome. In this Special Issue, original research articles, commentaries and reviews are welcome. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
