

## Special Issue

# Advances in Diagnostics and Prognostics in the Management of Intrathoracic Malignancies

### Message from the Guest Editors

Within the dynamic landscape of oncology, the management of intrathoracic malignancies has always been at the forefront of medical and technological advances with respect to diagnostic and prognostic innovations. As we have delved deeper into the intricacies of this disease's biology, our understanding of its aggressiveness, patterns, and symptomatology has expanded. Consequently, there is a pressing need to further enhance our diagnostic methods, enabling the earlier detection and monitoring of minimal-residual disease and micro-metastatic disease. Traditional staging systems, while valuable, may fall short in elucidating the complexities of disease patterns in the current era. Thus, the integration of molecular biomarkers, radiomics, artificial intelligence, and immunobiological parameters is imperative to provide comprehensive insights into disease prognosis. This Special Issue will delve into the pivotal strides made in diagnostics and prognostics for intrathoracic malignancies, illuminating contemporary approaches shaping clinical practice.

---

### Guest Editors

Dr. Akshay Jatin Patel

1. Institute of Immunology and Immunotherapy, University of Birmingham, Birmingham, UK
2. Department of Thoracic Surgery, University Hospitals Birmingham, Birmingham, UK

Dr. Marcus Taylor

Department of Thoracic Surgery, Manchester University Hospital NHS Foundation Trust, Wythenshawe Hospital, Manchester, UK

---

### Deadline for manuscript submissions

closed (31 December 2025)

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
