

Special Issue

The Role of Human Papillomavirus (HPV) in Cancers: Epidemiology, Molecular Biology, and Advancements in Detection Methods

Message from the Guest Editor

We invite researchers and clinicians to submit original research articles, reviews, and perspectives for an upcoming Special Issue focusing on the role of human papillomavirus (HPV) in cancers. This Special Issue aims to highlight recent advances in HPV-related cancer epidemiology, the molecular mechanisms underlying HPV-driven oncogenesis, and the development of innovative detection and diagnostic technologies. Topics of interest include, but are not limited to, the following:

- Epidemiological trends and risk factors in HPV-associated cancers;
- Molecular and cellular pathways influenced by HPV infection;
- Novel biomarkers and diagnostic tools for HPV detection;
- Interactions between HPV and host immune responses;
- Translational and clinical implications for prevention and therapy.

Submissions will undergo rigorous peer review and will be published to promote interdisciplinary dialogue and innovation in HPV research. We look forward to your contributions to this timely and impactful Special Issue.

Guest Editor

Prof. Dr. Peter C. Angeletti

Nebraska Center for Virology, School of Biological Sciences, University of Nebraska-Lincoln, 237 Morrison Center, Lincoln, NE, USA

Deadline for manuscript submissions

30 November 2026

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
