Robotic Surgery in Colorectal Cancer

Message from the Guest Editor

Many colorectal cancer patients have benefited from minimally invasive surgery. To a certain extent, the adoption and applicability of conventional laparoscopy have been curtailed by the technical limitations imposed by the equipment. Robotic surgery has been developed to address some of these issues. While early studies on robotic surgery in colorectal cancer focused on its feasibility and safety, more contemporary studies have sought to compare its outcomes with laparoscopy—in particular, its cost effectiveness. We are pleased to invite you to contribute original research or review articles to this Special Issue, focusing on the use of robotic surgery in colorectal cancer and how recent data have helped us to distinguish it from conventional laparoscopy. Studies addressing the clinical outcomes, ergonomics, and costs are welcomed.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
