Advances in the Management of Prostate Cancer: New Insights into Biological and Clinical Factors

Message from the Guest Editors

Prostate cancer remains a major global health concern, with ongoing developments enhancing our understanding of its biological mechanisms and clinical management. This Special Issue aims to explore the latest advancements in the management of prostate cancer, highlighting innovative diagnostic tools, risk stratification models and tailored therapeutic strategies, such as androgen receptor signaling inhibitors, targeted therapies and innovations in surgical and radiation therapy. We invite submissions of original research articles and comprehensive reviews that provide new insights into these areas. This Special Issue intends to foster interdisciplinary collaboration and serve as a vital resource for researchers, clinicians and healthcare professionals dedicated to enhancing patient outcomes through integrated scientific discovery and clinical application. We look forward to your contributions and advancing our collective understanding and management of prostate cancer.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
