Special Issue

Neoadjuvant Chemoradiotherapy for Gastrointestinal Cancer

Message from the Guest Editor

We are pleased to invite you to a Special Issue of *Cancers* covering neoadjuvant chemoradiotherapy (CRT) for gastrointestinal (GI) cancer, focusing on rectal cancer, esophageal cancer, gastric cancer, and pancreatic cancer. Neoadjuvant CRT has been a cornerstone in the treatment of many GI cancers, aiming for downstaging in order to improve surgical outcome and enhance survival. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: clinical trials, novel combinations of systemic therapies, immunotherapy, and radiotherapy, novel strategies for applying

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
