

Special Issue

Advantages and Benefits: Proton Therapy vs. X-Ray Treatment in Cancer

Message from the Guest Editor

Evidence on differential values between proton therapy and photon therapy in oncology is increasing. There is a large number of prospective studies that evaluate criteria of comparison for clinical benefit using the proton vs. photon dosimetric difference in multiple models of human cancer. For this Special Issue, we invite you to submit manuscripts that provide innovative information from molecular differential observations (biomarkers) to the functionality and quality of life of patients and their tissues studied by experts in clinical radiotherapy with proton or photon irradiation resources.

Guest Editor

Prof. Dr. Felipe A. Calvo

Scientific Director Proton Therapy Unit, Clínica Universidad de Navarra, Madrid, Spain

Deadline for manuscript submissions

30 April 2026

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
