

Special Issue

Navigating the Landscape of Female Cancers: Recent Discoveries and Treatment Trends

Message from the Guest Editors

We are pleased to invite you to contribute to a Special Issue focused on the latest innovations in the field of female malignancies. Breast, ovarian, cervical, and uterine tumors, among others, present significant challenges worldwide. However, significant advancements have been made in the diagnosis and treatment of these diseases over the last few decades. This Special Issue aims to shed light on recent discoveries and treatment trends in female cancers, providing a comprehensive overview of this topic. By exploring emerging research and clinical practices, we aspire to enhance our current understanding of these diseases. Original research articles and reviews can include, but are not limited to, the following:

- Molecular mechanisms underlying the development and progression female cancers;
- Novel diagnostic approaches and biomarkers for early detection;
- Advances in surgical techniques and minimally invasive interventions;
- Targeted therapies and immunotherapies for different subtypes of cancers;
- Multidisciplinary approaches to cancer care;
- Psychosocial support and quality of life interventions for patients and survivors.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
