# Hematologic Malignancies and Related Disorders: Challenges from Diagnosis to Treatment

# Message from the Guest Editors

Hematologic malignancies represent a constantly changing landscape with promising diagnostic and treatment modalities. Emerging challenges in the field involve not only new treatments and appropriate patient selection but also unprecedented worldwide changes, such as COVID-19. Therefore, this Special Issue aims to highlight basic, translational, and clinical research in the field, gathering both original research and review articles. We welcome physicians and scientists to share their valuable research with us.

# **About the Journal**

# Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### **Editor-in-Chief**

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

## **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
