

Special Issue

Advances in Surgery for Endocrine Cancers

Message from the Guest Editors

For this Special Issue, we invite submissions detailing recent advancements in surgery for thyroid, parathyroid, adrenal and pancreatic neuroendocrine tumors. The issue will serve as a comprehensive platform for sharing innovative techniques, clinical outcomes and future directions in endocrine surgery. We welcome a wide range of articles, from reviews on novel surgical approaches, intraoperative imaging and navigation to clinical studies examining important oncological outcomes. These outcomes include but are not limited to survival rates, recurrence, margin status, complication prevention and postoperative recovery. Comparative analyses of robotic, laparoscopic and open surgical techniques are also encouraged, along with investigations into cost-effectiveness, training methods, ethical considerations and implementation in diverse healthcare systems. By integrating clinical evidence with technical innovation, this Special Issue will showcase the field's current achievements and chart its future course. Our goal is to highlight key developments and advance best practices, thereby improving surgical outcomes for patients with endocrine cancers.

Guest Editors

Prof. Dr. Michael Bouvet

Department of Surgery, University of California San Diego, La Jolla, CA 92092, USA

Prof. Dr. Eren Berber

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
