Special Issue

Cancer Risk Factors and Prognosis in Transplant Patients

Message from the Guest Editor

We are pleased to invite clinicians, surgeons, and basic science and clinical researchers to contribute to this Special Issue, where the aim is to discuss topics such as the following:

- Risk factors for new cancers after transplantation;
- The diagnosis and management of cancer after transplantation;
- The role of liver transplantation in the management of hepatocellular carcinoma;
- The evolving nature of transplant oncology;
- The role of liver transplantation in the management of cholangiocarcinoma;
- The role of liver transplantation in the management of hepatic metastatic disease, including metastasis from neuroendocrine lesions and colorectal cancer;
- Adapting immunosuppression in a patient with cancer after transplantation;
- Evaluating donors with a cancer history;
- Psychosocial support of the transplant patient with a malignancy;
- Cancer in transplant patients in the age of artificial intelligence.

We are looking forward to receiving your contributions.

Guest Editor

Prof. Dr. Georgios Tsoulfas

Department of Transplantation Surgery, Aristotle University of Thessaloniki, Hippokration Hospital, 541 24 Thessaloniki, Greece

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
