

# Special Issue

## Clinical Research in Ocular Oncology

### Message from the Guest Editors

This Special Issue will cover all aspects of clinical research in ocular oncology. Research related to all types of ophthalmic cancers is welcome: intraocular, periocular and orbital tumors, including both benign and malignant neoplasms. Authors are encouraged to consider submissions related to diagnosis, treatment, medical systems, and patient-reported outcomes/quality of life. We welcome original research articles, reviews, communications, and systematic reviews covering various aspects of clinical research in ophthalmic cancers.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
