

Special Issue

The Application of Endoscopy in Gastrointestinal Cancers

Message from the Guest Editors

All these application areas place endoscopy in a leading role in the management and follow-up of gastrointestinal neoplasms. Aim: This Special Issue aims to summarize all the main applications of endoscopy for digestive neoplasms and the evidence supporting the effectiveness and safety of main endoscopic techniques for the curative or palliative treatment of gastrointestinal cancers. We are pleased to invite you to contribute by submitting an original research article, a meta-analysis or a narrative review. Research areas may include (but are not limited to) the following: endoscopic screening/surveillance or the endoscopic treatment of gastrointestinal cancers.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
