

Special Issue

Advances in Head and Neck Squamous Cell Carcinoma

Message from the Guest Editors

It is an exciting time in the field of head and neck cancer. Numerous advances in robotic surgery, radiation therapy techniques, novel medical therapies, and biomarker diagnostics have altered the treatment of patients. Now, more than ever, it is important to keep abreast of new findings and to determine how to best incorporate new data into practice. I hope that this edition will be representative of these discoveries and demonstrate the breadth of ongoing research in these domains.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
