

## Special Issue

# The Cancer Stem Cells and the Quiescence

### Message from the Guest Editor

We would like to invite research and review papers on the broad field of cancer stem cells not limited to quiescence. This Special Issue of *Cancers* covers all aspects of CSCs, including the identification of novel markers of quiescent CSCs, animal models to understand CSC biology, metastasis, cell signaling, dormancy, metabolism, and preclinical and clinical studies of therapy developments. Expert opinions and systematic reviews are also welcome.

### Guest Editor

Dr. Bhopal Mohapatra

Departments of Genetics, Cell Biology & Anatomy, University of Nebraska Medical Center, Omaha, NE 68198, USA

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
