

Special Issue

Analysis of Cancer Radiotherapy

Message from the Guest Editor

This Special Issue will focus on highlighting the latest developments in emerging and established cancer radiation treatments (photon and particle based) that are relevant to the global research and clinical communities. The scope of the Special Issue will include significant technical advances, new theranostic platforms and multi-modal treatment options for improving cancer radiation treatments and quality assurance with a view to demonstrating improved treatment efficacy via in vitro or in vivo datasets or clinical trial cohorts. Dr. Michael Lerch

Guest Editor

Prof. Dr. Michael L. F. Lerch

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
