Recent Advances and Challenges in Breast Cancer Surgery

Message from the Guest Editor

During the last fifty years, we have witnessed a revolution in the field of breast cancer management. Therapeutic de-escalation, which has been seen in all areas of treatment, is especially visible in the case of surgical treatment, which has moved to precision treatments based on patient and tumor characteristics. It has been replaced by less invasive procedures, and technical and technological advances change the way of facing surgical treatment of the breast and axilla. This Special Issue of *Cancers* aims to review and update the surgical treatment of breast cancer through several articles focused on different aspects of the surgical technique and its relationship with technological advances and the relationship of surgery with other therapeutic and diagnostic modalities.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
