

Special Issue

Chemotherapy for Colorectal Cancer

Message from the Guest Editor

In recent years, target therapy has developed in colorectal cancer. Over the years, there have been many challenges, such as the proper positioning of molecular-targeted drugs, postoperative adjuvant chemotherapy, and chemotherapy for elderly. In this Special Issue, we wish to collect original research and review articles which address all innovations dedicated to treatments for elderly patients, adjuvant treatment, immune checkpoint inhibitors, and targeted therapies. We hope that this Special Issue will contribute to furthering understanding on the recent advancements and future perspectives regarding chemotherapy for colorectal cancer.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
