Advancements in Head and Neck Cancer Surgery

Message from the Guest Editor

In recent years, the field of head and neck cancer surgery has witnessed remarkable advancements in many fields, driven by innovative techniques, technological developments, and a deeper understanding of tumor biology.

In this Special Issue, we will cover a wide range of topics related to head and neck cancer surgery, including, but not limited to, minimally invasive surgical techniques, robotic-assisted surgery, reconstructive surgery and microvascular techniques, surgical management of advanced and recurrent tumors, surgical innovations and technological advancements, multidisciplinary approaches to treatment planning and execution, surgical outcomes and quality-of-life assessments, patient-centered care and shared decision-making, and training and education in head and neck surgical oncology. The main objective of this Special Issue is to provide a comprehensive platform for researchers, clinicians, and healthcare professionals to share their research findings in the field of head and neck cancer surgery.

Guest Editor

Prof. Dr. Carlos M. Chiesa-Estomba

Department of Otorhinolaryngology-Head and Neck Surgery, Hospital Universitario Donostia, San Sebastian, Spain

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
