

## Special Issue

# State-of-the-Art Research on Gastric Cancer Surgery

### Message from the Guest Editors

We are pleased to invite you to contribute to our upcoming Special Issue titled "*State-of-the-Art Research on Gastric Cancer Surgery*". This Special Issue will focus on advancements in personalized surgical oncology, highlighting the significance of tailored treatment strategies in improving patient outcomes. Gastric cancer surgery is evolving rapidly with the introduction of minimally invasive techniques, innovative non-invasive biomarkers, and next-generation sequencing analyses. This Special Issue will explore various aspects of gastric cancer surgery, including the concept of total mesogastric excision, gastric juice analyses, anastomoses with indocyanine control, and lymph node mapping. Additionally, we will cover innovative technical issues that enhance surgical precision and patient care. We welcome original research articles and reviews in areas such as personalized surgical oncology, minimally invasive techniques, innovative non-invasive biomarkers, gastric juice analyses, total mesogastric excision concept, anastomoses with indocyanine control, lymph node mapping, next-generation sequencing analyses, and other related topics.

### Guest Editors

Dr. Georgios D. Lianos

Department of Surgery, University of Ioannina, Ioannina, Greece

Dr. Dimitrios Schizas

First Department of Surgery, Laikon General Hospital, National and Kapodistrian University of Athens, Athens, Greece

### Deadline for manuscript submissions

closed (20 May 2025)

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
