

Special Issue

Modern Approaches in Gastrointestinal (GI) Oncology: From Bench to Bedside

Message from the Guest Editor

This Special Issue will explore recent advances in the diagnosis and treatment of gastrointestinal (GI) cancers, with a particular focus on translational and multidisciplinary strategies. Contributions are welcome on novel therapeutic combinations, biomarkers of response and resistance, immune modulation, and radiotherapy-based approaches. We also encourage submissions related to radiomics, radiogenomics, and artificial intelligence applied to GI oncology. Both clinical studies and preclinical research with translational relevance will be considered, as well as reviews and expert perspectives.

- gastrointestinal oncology
- radiotherapy and immunotherapy
- translational cancer research
- radiogenomics and AI
- biomarkers and personalized treatment

Guest Editor

Dr. Francesco Fiorica

Department of Radiation Oncology and Nuclear Medicine, AULSS 9 Scaligera, Verona, Italy

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
