

## Special Issue

# Exploring Immunotherapy in Colorectal Cancer

### Message from the Guest Editors

The success of immunotherapy in various solid tumors has sparked growing interest in its potential for colorectal cancer. This Special Issue will focus on immunotherapy in advanced colorectal cancer, as well as in neoadjuvant and adjuvant settings. It will also explore future strategies for improving patient selection and overcoming resistance through combined therapies and additional biomarkers.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
