Innovations in Endocrine Cancer—Technology, Techniques and Therapy

Message from the Guest Editor

As , I am pleased to introduce this *Cancers* (IF: 6.575) Special Issue entitled “*Novelty in Endocrine Cancer—Technology, Techniques, and Therapy*”. The past decade has seen much innovation in the field of endocrinology, with novel surgical approaches, technologies, medications, and understanding changing the way we practice. We invite authors to contribute primary works and reviews relevant to the field of endocrinology, including discussions of topics such as the thyroid gland, the parathyroid glands, the adrenal gland, and melanomas. We particularly welcome work discussing imaging studies (e.g., ultrasound, CT, MRI, and PET/CT), novel approaches (e.g., minimally invasive techniques and remote-access approaches), and putative genetic markers of disease.

Guest Editor

Prof. Dr. Emad H. Kandil

Division of Endocrine and Oncologic Surgery, Department of Surgery, Tulane University School of Medicine, New Orleans, LA 70112, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
