

Special Issue

New Challenges in Allogeneic Hematopoietic Stem Cell Transplantation for Acute Myeloid Leukemia

Message from the Guest Editors

We are pleased to invite authors to contribute with reviews of the literature and other original clinical research on all these topics, especially on the use of allo-HSCT against chemorefractory high-risk AML, on the prevention of relapse after transplantation and the treatment of steroid-refractory GVHD. Biological studies regarding the reconstitution of the immune system following allo-HSCT, the mechanisms of persistence of leukemic stem cells (LSC), and the mechanisms of GVHD resistance to treatment are also welcome.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
