

Special Issue

Exploring the Genetic and Epigenetic Factors in Leukemia and Lymphoma (2nd Edition)

Message from the Guest Editor

Following the success of our previous edition, we are pleased to launch the second edition. Understanding the genetic and epigenetic mechanisms that drive hematological malignancies is essential for developing improved strategies for prevention and personalized treatment. This Special Issue aims to offer an overview of the latest discoveries in the field, focusing on mechanistic approaches, discovery platforms, and diagnostic and therapeutic opportunities. We warmly invite original research articles and reviews that elucidate these molecular determinants.

- Alterations in hematological disease and gene regulation
- DNA/RNA modifications (methylation, histone mods, noncoding RNAs)
- Computational approaches for epigenetic analysis
- Response to environmental factors and drugs
- Molecular profiling for biomarkers and therapeutic targets

Guest Editor

Dr. Francesco E. Boccalatte

The Aifantis Lab, NYU Grossman School of Medicine, New York, NY, USA

Deadline for manuscript submissions

31 October 2026

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
