

Special Issue

Tumor-Associated Macrophages in Primary Liver Cancers and in Premalignant Liver Diseases

Message from the Guest Editor

This Special Issue aims to assemble original research manuscripts and literature reviews deciphering the multifaceted, and somewhat contradictory, functions of liver macrophages in primary liver cancers and in premalignant conditions. We sincerely hope that this Special Issue may serve as a platform for exchanging new insights into liver macrophages and will contribute to the understanding and therapy of oncological diseases and premalignant conditions of the liver. In this Special Issue, original research articles and reviews are welcome. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
