

Special Issue

Gene Expression Regulation of Long Non-coding RNAs in Cancer

Message from the Guest Editors

This Special Issue will encompass recent research on the form and function of long non-coding RNAs (lncRNAs) that play a causal role in the etiology of cancer. lncRNAs will be the central focus of this Special Issue, including but not limited to their transcriptional regulation; miRNA targeting; partnering interactions in protein complexes; and mechanisms in the initiation, promotion, and progression of lung cancer. This Special Issue will also encompass the utility of lncRNAs as biomarkers of cancer and the effect that specific lncRNAs play on patient outcomes and response to current therapies.

Guest Editors

Dr. Crystal N. Marconett

Department of Surgery, Keck School of Medicine, University of Southern California, Los Angeles, CA 90089, USA

Dr. Linlin Guo

Department of Microbiology and Immunology, Indiana University School of Medicine, Indianapolis, IN 46202, USA

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
