

Special Issue

Genome Sequencing of Cancer: Identifying Targets and Biomarkers for Therapy

Message from the Guest Editor

Recent progress in next-generation sequencing has enabled the comprehensive genetic profiling of various cancers, including gastrointestinal, hepatobiliary and pancreatic cancer. The aim of this Special Issue is to present the recent progress on the clinical application of genetic analysis, including the identification of novel therapeutic targets, the early cancer detection, and the exploration of predictive biomarkers based on any genetic testing, which should lead to the realization of the precision medicine. We are inviting relevant original research, systematic reviews, meta-analyses, and short communications covering the above-mentioned topics.

Guest Editor

Dr. Haruhiko Takeda

Department of Gastroenterology and Hepatology, Graduate School of Medicine, Kyoto University, 54 Shogoin-Kawaharacho, Sakyo-ku, Kyoto 606-8507, Japan

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
