

Special Issue

Diagnosis and Staging of Gastroesophageal Cancer

Message from the Guest Editors

The aim of this Special Issue is to promote the analysis of several interesting insights regarding the current diagnosis of Gastric Cancer, but also the employment of new technologies and tools to improve the accuracy of pre-operative Gastric Cancer management. We are pleased to invite you as eminent experts in this field and we will be grateful for your precious contribution to this upcoming Special Issue with high-quality original papers, such as original research articles, systematic reviews, meta-analyses, or review articles. Please feel free to nominate someone from your team as a co-author if needed. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:
