

Special Issue

Gynaecological Cancers Risk: Breast Cancer, Ovarian Cancer and Endometrial Cancer

Message from the Guest Editor

There have been a number of strides in our understanding of factors that affect cancer risk, risk assessment, ascertainment of women at increased risk, risk stratification, as well as management strategies, including screening and prevention, in recent years. We welcome submissions in gynaecological or women's cancers that cover any relevant topic in the areas of cancer risk, risk assessment (including ascertainment), and risk management.

Guest Editor

Prof. Dr. Ranjit Manchanda

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
