Special Issue

New Models of Cancer Care to Improve Patient Experiences and Clinical Outcomes

Message from the Guest Editor

We are pleased to announce this Special Issue on exploring innovative models of cancer care delivery that enhance patient experiences and clinical outcomes. It will cover a range of topics, including interventions involving integrated care models using team-based care delivery approaches; telehealth and digital health innovations and interventions such as remote monitoring and other technology-enabled interventions; comprehensive, high-quality care delivery strategies; care during natural disasters and other extreme events; and access to and quality of care among patients most at risk for disparate care outcomes. In addition, the Special Issue will highlight key advances in value-based cancer care models through multilevel interventions.

Guest Editor

Dr. Manali I. Patel

Division of Oncology, Stanford University School of Medicine, Stanford, CA, USA

Deadline for manuscript submissions

15 September 2026

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
