

Special Issue

Advances in Head and Neck Oncology

Message from the Guest Editors

The field of head and neck oncology is rapidly evolving. While treatment has typically involved a combination of surgery, radiation therapy, and chemotherapy, new inroads are being made within each of these sub-specialities. Moreover, the possibility of immunotherapy is leading to novel combinations of treatments and the search for biomarkers to identify which treatment modality may be best suited for a given patient.

This Special Issue will highlight the current state of the art in head and neck oncologic treatment, the biologic advances supporting the newest combination therapies, and the potential for immunologic agents to transform the current standard of care.

Guest Editors

Dr. Vinita Takiar

University of Cincinnati College of Medicine, Cincinnati, United States

Dr. Sana D. Karam

University of Colorado at Denver Anschutz Medical Campus, Aurora, United States

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
