

Special Issue

Advances in Pathogenesis and Pathology Diagnosis of Gynecologic Cancers

Message from the Guest Editor

Recent advances in molecular pathology and precision medicine have profoundly reshaped our understanding of gynecologic cancers. This Special Issue aims to highlight novel discoveries in the pathogenesis, classification, and diagnostic approaches of ovarian, endometrial, cervical, and related gynecologic malignancies. We welcome original research, comprehensive reviews, and translational studies that explore molecular mechanisms, diagnostic biomarkers, histopathologic correlations, and emerging technologies in tissue-based and liquid biopsy diagnostics. By integrating molecular and morphologic insights, this collection seeks to bridge the gap between laboratory research and clinical practice, ultimately improving patient management and outcomes in gynecologic oncology.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
