

## Special Issue

# Artificial Intelligence Across the Head and Neck Cancer Care Continuum

### Message from the Guest Editors

This Special Issue, titled “*Artificial Intelligence Across the Head and Neck Cancer Care Continuum*”, will highlight these developments and provide a broad overview of how artificial intelligence is shaping the future of head and neck cancer care. We welcome submissions that advance any of these areas, from focused studies on imaging or pathology to comprehensive reviews that will help drive this field forward. **Benefits of Publishing in a Special Issue**

- Ease of navigation: Grouping papers by topic helps scholars navigate broad scope journals more efficiently.
- Greater discoverability: Special Issues support the reach and impact of scientific research. Articles in Special Issues are more discoverable and cited more frequently.
- Expansion of research network: Special Issues facilitate connections among authors, fostering scientific collaborations.
- External promotion: Articles in Special Issues are often promoted through the journal's social media, increasing their visibility.
- Reprint: MDPI Books provides the opportunity to republish successful Special Issues in book format, both online and in print.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
