MRI and PET Imaging in Neuro-Oncology—Current Developments and Clinical Translation

Message from the Guest Editors

Imaging biomarkers by means of magnetic resonance imaging (MRI) and positron emission tomography (PET) techniques are increasingly applied in the clinic, with a fast-growing body of evidence regarding their diagnostic value in neuro-oncology. In contrast to biochemical or histological markers, the key advantages of imaging biomarkers are the non-invasive nature and spatial and temporal resolution of these approaches. This Special Issue of *Cancers* focuses on new technical developments and clinical applications of novel MR biomarkers in humans, with a strong focus on neuro-oncologic diseases. These include both validation studies with clinically established biomarkers and novel approaches that have recently demonstrated high potential for clinical utility.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
