

Special Issue

Current Research in Pediatric Hematological Oncology

Message from the Guest Editors

This Special Issue of *Cancers*, “Current Research in Pediatric Hematological Oncology”, will provide a platform for cutting-edge research and comprehensive reviews addressing the biology, diagnosis, and treatment of pediatric hematologic malignancies and related disorders. We particularly encourage studies that explore novel therapeutic strategies, the mechanisms behind disease progression, immunotherapy, resistance to treatment, and the use of innovative preclinical models. Additionally, contributions focusing on translational research, biomarker discovery, clinical trials, and supportive care are highly encouraged. We welcome original research articles, reviews, and perspectives that advance our understanding of pediatric hematology-oncology and ultimately contribute to improving outcomes and quality of life for young patients.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
