

Special Issue

Nutrition in Survivors with Advanced Cancer: The Role of Appetite, Muscle Wasting, Obesity, and Altered Body Composition

Message from the Guest Editor

The aim of this Special issue is to address the most important facets of nutrition encountered by patients (survivors) with advanced cancer, their families, and clinicians. The scope of this Special Issue includes clinical and translational research that is patient-centered and clinically relevant. Research areas may include (but are not limited to) the following:

- Nutrition content in patients with advanced cancer, including both macro and micronutrients.
- The role of interdisciplinary team members in managing nutritional issues, including dietitians, physical therapists, psychologists, and nurses.
- Exercise for preventing muscle wasting and weakness in patients with advanced cancer.
- New therapeutic agents and their anticipated role in patients with advanced cancer.
- Clinical challenges in managing patients with advanced cancer that are on anti-obesity (GLP-1) drugs.
- The microbiome and its impact on symptom burden and wasting in patients with advanced cancer.
- Nutrition and older patients with advanced cancer.
- Critical knowledge gaps and education needs among health care providers regarding nutrition and cancer.

Guest Editor

Prof. Dr. Egidio Del Fabbro

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
