# Advances in Abdominal Surgical Oncology and Intraperitoneal Therapies

### Message from the Guest Editors

In this Special Issue, we delve into the forefront of abdominal oncologic surgery, exploring the latest developments, challenges, and opportunities shaping the future of cancer care in this critical domain. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Current and new cytostatic agents;
- Indications and new trends in PIPAC;
- Diagnosis and selection of patients for oncologic surgery;
- Cytoreductive surgery and HIPEC;
- Liver transplantation for cancer;
- Liver metastasis;
- Pancreatic cancer;
- Colorectal cancer;
- Ovarian cancer;
- Robotic surgery in abdominal cancer;
- Role of liquid biopsy in abdominal surgery;
- Cryoablation's utility in inducing immune activation and immunotherapy response;
- Evaluation of the diagnostic and therapeutic roles of new immune checkpoints in abdominal cancer;
- Development of 3D organoids in abdominal surgery

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
