## Skull Base Tumors

### Message from the Guest Editor

Anterior skull base tumors encompass a range of benign and malignant pathologies that occur along the junction of the cranial base and sinonasal cavity. Optimal management of these tumors is multidisciplinary and must balance oncologic outcomes with patient function and quality of life. In recent years, surgical management has been transformed by the advent of endoscopic endonasal resection. However, open approaches remain a necessary tool in extensive tumors in specific anatomic regions. Additional treatment modalities also play a critical role, including radiation therapy and systemic chemotherapeutics. This Special Issue will highlight the current state-of-the-art management of skull base tumors, outcomes of treatment, anatomic features of skull base surgery, and advances in the management of sinonasal malignancies. We look forward to receiving your contributions.

### Guest Editor

Dr. Garret W. Choby

1. Associate Professor of Rhinology and Skull Base Surgery, Mayo Clinic College of Medicine, Rochester, MN 55905, USA
2. Chair of Quality in the Department of Otolaryngology—Head and Neck Surgery and Department of Neurologic Surgery, Mayo Clinic College of Medicine, Rochester, MN 55905, USA

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
