Quality of Life in Patients with Gynecologic Cancer

Message from the Guest Editor

Quality of life (QoL) has become one of the most relevant goals and endpoints in gynecological cancer management, taking into consideration the patient's perspective to support the treatment decision-making process. This Special Issue attempts to highlight this relevant endpoint with the aim of increasing the awareness of this topic in clinical practice. For this reason, we hope to include articles from patient perspectives, as well as from doctor perspectives in taboo fields, including sexuality and end-of-life management. Furthermore, in general, quality of life issues are neglected in the increasingly more relevant space of long-term survivorship.

Guest Editor

Prof. Dr. Jalid Sehouli

Department of Gynecology with Center for Oncological Surgery,
Virchow Campus Clinic, Charité Medical University, Augustenburger
Platz 1, 13353 Berlin, Germany

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
